Design

I am a full-stack developer with a passion for design and well curated experiences. I strive to be better than who I was the day before. I use problem solving, continuous learning and getting out of my comfort zone as a means for growth. Making personal connections and being creative in all aspects of life is what makes life worth living.

For Office Use Only, New York, NY

Creative Technologist, March 2016 - Current

Assist technical director implementing custom Wordpress sites for the shop and clients such as Michael K Chen Architecture, Architecture At Large, and Neuehouse. Custom mailchimp templates, and develop an in-house application to present design iterations to clients.

Freelance Developer, Feb 2016 - Current

MEAN stack custom CMS and site redesign for Soft City Printing based out of Brooklyn, NY. Custom Tumblr theme for New Layer, an electronic music and art group based out of Santiago, Chile.

General Assembly, Washington, DC

Full-Time Web Development Immersive, October-January 2016

Learned the fundamentals of Web Development to build dynamic back-end web applications with Rails and single-page applications using the MEAN Stack. I was constantly exposed to new technologies, frameworks, methodologies, and best practices.

Garrick Gott, New York, NY

Design Assistant, September 2014 - September 2015

Branding for New York Artwork Fair

Worked on various projects designing high quality art books generally focusing on a particular artist. Notable projects include the works of Mark Gonzales and William Kentridge. My duties generally included layout design and document asset management for production. I personally worked on the branding signage
